EXPERIENCE

Engrain, Littleton — *Backend Developer*

June 2015 - Present

Engrain is an agency dedicated to bringing clients refreshing designs that compliment high end apartment web services. I worked with **Codeigniter** to update their proprietary CMS system and **Lumen** to create client facing applications. I was responsible for many **3rd party integrations** with availability providers, google, event schedulers and more. I was also in charged with **MySQL** maintenance when it was required to update schemas or to update state with custom **scripts**.

Customer Paradigm, Boulder — *Magento Developer*

April 2014 - June 2015

Customer Paradigm is responsible for the maintenance upgrades, and improvements to client **Magento** stores. I was responsible for **full stack development** of new features and updates, bug fixes, and update patching. Everything from **javascripting** to **linux** updates and network security audits were on the table for me.

Aljex Software, Boulder — *Full stack Developer*

June 2012 - April 2014

Aljex Software is a trucking logistic service provider. I was responsible for feature build outs and maintenance of the platform. I wrote custom **PHP** scripts and **jQuery** functionality for new features. I also wrote **3rd party integrations** with **PHP** and performed **legacy** maintenance in **FilePro**.

EDUCATION

University of Denver, Denver — *Bachelors – Computer Science*

August 2007 - April 2012

Colorado Mountain College, Edwards — *Associate – Science*

August 2005 - June 2007
